

LAUNDRY ASSOCIATION OF AUSTRALIA

GUIDE

Guidelines, Understanding, Industry Development and Excellence

Expression of Interest - Committee Membership 2026–2028

About the LAA GUIDE Initiative

The Laundry Association of Australia (LAA) is proud to launch the GUIDE Initiative - Guidelines, Understanding, Industry Development and Excellence - a dedicated committee established to develop, maintain and promote the standards, best practices, compliance frameworks and industry benchmarks that define professional excellence in the Australian commercial laundry sector.

The commercial laundry industry operates across some of Australia's most critical service sectors - healthcare, aged care, hospitality, corrective services and food production. The quality, safety and reliability of laundry services in these sectors is not just a matter of commercial reputation; in many cases it is a matter of infection control, patient safety and regulatory compliance.

The GUIDE Committee will be the authoritative voice of industry standards and best practice under the LAA banner - producing practical, accessible documentation that helps every Australian laundry business operate safely, compliantly and with confidence.

Our Vision, Mission & Purpose

VISION

An Australian commercial laundry sector where every business - regardless of size - has access to clear, practical and up-to-date standards, compliance guidance and best practice documentation.

MISSION

To develop, maintain and promote industry guidelines, benchmarks and compliance frameworks that protect the safety, quality and reputation of the Australian commercial laundry sector.

PURPOSE

To equip LAA members with the tools, knowledge and documented standards they need to operate with excellence, meet regulatory obligations and lead the industry with confidence.

What the GUIDE Committee Will Do

The GUIDE Committee will be the driving force behind a comprehensive library of industry standards, compliance resources and benchmarking tools for the Australian commercial laundry sector. Key programs and deliverables will include but are not limited to:

- **Best Practice Guidelines**
Using the AS4146 Standards as a reference to produce sector-specific best practice guides for key customer segments including healthcare, aged care, hospitality, food service and corrective services - tailored to the unique compliance requirements of each.
- **Industry Benchmarking Program**
Establishing the LAA Annual Benchmarking Survey - collecting and reporting on key performance indicators across Australian laundry businesses including throughput, wash quality, water and energy use, linen loss rates and labour productivity.
- **Compliance & Regulatory Guidance**
Translating complex regulatory requirements - including AS4146 standards, Therapeutic Goods Administration (TGA) guidelines, HACCP principles and relevant state health department requirements - into plain-language compliance guides for LAA members.
- **Member Education & Training Resources**
Developing self-assessment checklists, training modules and audit tools that help laundry operators assess their own compliance, identify gaps and implement improvements against documented industry standards.
- **International Standards Alignment**
Monitoring and translating relevant international standards from bodies including ETSA (Europe), TRSA (USA), and ISO to ensure Australian guidelines remain current, globally informed and fit for purpose.
- **Review & Maintenance Cycle**
Establishing a formal 2-year review cycle for all LAA guidelines and standards documents, ensuring they remain accurate, relevant and aligned with regulatory changes, technological advances and sector feedback.
- **Government & Regulator Engagement**
Acting as the LAA's expert advisory body on standards and compliance – working with the CEO and Board to engage with Standards Australia, state health departments, WorkSafe authorities and other regulators to influence policy and represent industry interests.

Key Standards & Compliance Focus Areas

The GUIDE Committee will develop resources and guidance across the following priority areas in its inaugural 2026–2028 term:

Standards & Compliance	Benchmarks & Best Practice
• AS4146 Laundry Practice - review, update advocacy and plain-language translation • Healthcare linen processing - infection control and thermal disinfection standards	• Annual KPI benchmarking - wash quality, throughput, linen loss, rewash rates and customer satisfaction • Water and energy consumption benchmarks by laundry size and sector • Labour productivity benchmarks - pieces per operator hour and cost per kilogram

- | | |
|---|--|
| <ul style="list-style-type: none"> • Aged care compliance - alignment with the Aged Care Quality Standards and ACQSC requirements • HACCP principles for laundry operations in food service environments • Chemical handling, storage and Safety Data Sheet (SDS) compliance • WorkSafe / WHS obligations specific to laundry environments • Environmental compliance - trade waste, discharge and chemical disposal requirements • TGA-regulated textile decontamination guidance for healthcare linen | <ul style="list-style-type: none"> • Linen classification and processing standards for commercial laundries • Quality assurance frameworks - incoming linen inspection, wash validation and delivery standards • Workplace safety benchmarks - injury rates, near-miss reporting and safety audit compliance • Customer service standards and service level agreement (SLA) guidelines for commercial operators • Hygiene monitoring protocols - ATP testing, visual inspection and microbiological sampling guidance |

Committee Structure & Commitment

The inaugural LAA GUIDE Committee will comprise up to 12 members drawn from across the LAA membership, with representation from laundry operators, allied trade and equipment suppliers, compliance and regulatory specialists, and sector experts from healthcare, aged care, hospitality and related industries.

Given the technical and regulatory nature of this committee's work, we particularly encourage applications from individuals with experience in quality management, infection control, environmental health, WHS, food safety or regulatory compliance - in addition to those with deep laundry operations experience.

Committee Size	Up to 12 members for the inaugural 2026–2028 term
Term Length	2 years (2026–2028), renewable by mutual agreement
Meetings	Monthly recommended/ Quarterly (minimum) - held online via video conference; in-person at the LAA National Conference annually. What's App group to be developed by the CEO.
Time Commitment	Approximately 3–5 hours per quarter (meetings, document review, standards research, working group contributions)
Roles Available	Chair (1 position) Deputy Chair (1 position) General Committee Members (up to 10 positions)
Working Groups	Sub-groups will be formed for priority workstreams including Healthcare & Infection Control, Environmental Compliance, Benchmarking, and Best Practice Documentation
Key Deliverable	Best practice documentation and key metrics development
Remuneration	Voluntary (unremunerated)

Who We Are Looking For

We are seeking knowledgeable, detail-oriented and committed individuals from across the LAA membership who have a passion for standards, quality and operational excellence. You do not need to be a regulatory expert - we are looking for people with practical industry experience who are willing to contribute their knowledge to building resources that benefit every LAA member.

Strong candidates will demonstrate one or more of the following:

- Current or recent experience in the commercial laundry sector - as an operator, manager, quality lead, supplier or allied professional
- Experience with quality management systems, compliance frameworks, regulatory standards or audit processes in any industry
- Knowledge of Australian standards relevant to laundry including AS 4146, infection control protocols, food safety legislation or workplace health and safety obligations
- Ability to research, synthesise and communicate complex regulatory information in clear, practical language accessible to a broad industry audience
- Experience in healthcare, aged care, hospitality, food service, corrective services or pharmaceutical laundry operations is highly valued
- Experience in document development, policy writing, technical writing or training material creation will be well regarded
- Willingness to commit to the time requirements of committee membership (approximately 3–5 hours per quarter) and to contribute to document drafting and review between meetings

Open to: The GUIDE Committee is open to all LAA members. We actively seek representation from businesses operating across different customer sectors (healthcare, hospitality, aged care etc.), different laundry sizes (small independents through to large industrial operators), and all Australian states and territories.
