WELD

Women's Empowerment and Leadership Development

Expression of Interest - Committee Membership 2026–2028

About the LAA WELD Initiative

The Laundry Association of Australia (LAA) is proud to launch the WELD Initiative - Women's Empowerment and Leadership Development - a dedicated committee committed to advancing the role of women across every level of the commercial laundry sector in Australia.

The commercial laundry sector is essential to Australia's healthcare, hospitality, aged care, corrective services and manufacturing industries. Women play a vital and growing role in this sector - as operators, technicians, managers, executives and business owners - yet opportunities for structured leadership development, mentorship and industry recognition remain limited.

WELD exists to change that.

Established under the LAA banner, the WELD Committee will drive programs, resources and events that actively support women to grow, lead and thrive in the commercial laundry industry. The Committee will operate as a formal advisory body to the LAA Board, with representation from laundry operators, allied trade businesses, and emerging industry professionals across all states and territories.
